ABSTRACT OF THE PROJECT

This website is designed to attend all your needs from buying property, selling property/leasing of property India .Here you found the better opportunity to invest your value of entire life. Online Real Estate Portal helps us to maintain the database of various property & agents information. It not only helps us to maintain the agent information but here we also allow agents to access the portal updated information across the global environment. If you are looking to buy, sell, invest and lease a property then here is the better place to think forward. We know it is tiring to call individual property agents, arrange appointment, finding better time foe appointment and they will assist you. For such complex process we provide a one simple online form which requires your basic information and we will assist in sort time period.

OBJECTIVE

The main objective of this project is to bring the real estate industry online and enabling real estate industry participants to benefit from the internet. Site acts as an interface between individuals, brokers, and realtors. Here the users can advertise his property for buying or for selling. Site provides online real-estate service committed to helping you make wise and profitable decision related to buying, selling, renting and leasing of properties in India. We will provide a fresh new approach to our esteemed users to search for properties to buy or rent, and list their properties for selling or leasing. Property promises to be the most preferred way of finding your dream property and we are committed to help you make a wiser property decision, as a buyer or a seller. We understand the needs and concerns of Individuals, Brokers and Builders and provide them a common platform for realizing maximum benefits and security from real-estates. The search can be used on the Number of bedrooms. Number of washrooms, price, area, city, plot size, type of property etc. Enter your search criteria and click the search button to display the matching property

DESCRIPTION OF THE PROJECT

In this project we have created a website module of real estate website. It contains the typical contents like other real estate website has such as login, signup, photo gallery etc. All the other web-pages related to it linked similarly. In this project we have mainly focused just develop the module. In this user can create his account if he/she is visiting this website first time . If he/she is a user already then he/she can directly access the information that the user wants. In this module, there is different sections like new-projects ,ongoing-projects, upcoming –projects, photo gallery which the user can access it .From these the user can decide to buy. such as what type of apartment, area, location and surrounding etc.

WORK DIVISION AMONG STUDENTS

1. LOGIN SECTION

The image shows a login form titled "Login Form". At the top center is a large grey circular icon representing a user profile. Below this are two input fields: "Username" with the placeholder text "Enter Username" and "Password" with the placeholder text "Enter Password". A green button labeled "Login" is positioned below the password field. Under the "Login" button is a checkbox labeled "Remember me". At the bottom left is a red button labeled "Cancel". At the bottom right, there is a small watermark that says "Activate Windows Go to Settings to activate Windows" and a link that says "Forgot password?".

Login section is designed by Anil Chaudhary (11919112). In this module he has used the css and html . This section created for the those user who is already visited this website previously. So the user can directly login by using his username and password provided by the website during account creation to excess the information that he/she wants.

2. SIGNUP SECTION

Terms & Privacy.' At the bottom are two buttons: a red 'Cancel' button and a green 'Sign Up' button. In the bottom right corner, there is a small watermark that says 'Activate Windows' and 'Go to Settings to activate Windows.'"/>

Signup section is designed by NITIN SHARMA (11909137).In this module he has used the css and html . This section created for the those user who has not visited this website previously. So the user can create the account inorder to be a customer of the DreamHome company.

3. CONTACT US SECTION

Contact Us

Swing by for a cup of coffee, or leave us a message:

First Name

Your name..

Last Name

Your last name..

STATE

Andhra Pradesh

Subject

Write something..

Submit

Activate Windows
Go to Settings to activate Windows.

This contact section is made by TUSHAR DADWAL (11909854). In this section the user can contact the company main office if he/she has any doubts regarding any apartments and projects. He/she can also give the reviews so that the company can make the user experience more better.

4. REMAINING ALL

ONGOING PROJECTS

All the remaining task is performed by AKSHAY GUPTA(11913896).All the remaining sections like ongoing projects, upcoming projects, image gallery etc including the arrangement of codes and links.

ANALYSIS OF THE PROJECT

After completing the project we analyze our project to know whether it is user friendly or not .We came to know that it is completely user friendly .We haven't detected any weakness and in future if arise any we believe that we will solve it quickly as soon as possible.

CONCLUSION

The project is to bring the real estate industry and enabling real estate industry to benefit from the Internet. Site acts as an interface between Individuals, brokers and realtors. Here the user can advertise his property for buying or selling.
